Objective

Driven and innovative Postdoctoral Researcher with over 6 years of experience in Artificial Intelligence, specifically in Natural Language Processing and Generative AI. Possess a strong academic background with a PhD in Computer Science. Adept at conducting high-level research projects with impactful results, looking to leverage my skills in a challenging role as a Generative AI Engineer.

Education

PhD in Computer Science | Artificial Intelligence

Ibn Tofail University, Morocco (in co-direction with Aix-Marseille University, France)

December 2016 - November 2021

Master's Degree, Information Systems, Networks, and Multimedia

Université Sidi Mohammed Ben Abdellah-Fès, Morocco

September 2014 - July 2016

Bachelor's Degree, Computer Systems and Software

Aix-Marseille University, France

September 2013 - September 2014

Bachelor's Degree, Computer Science and Mathematics (SMI)

Université Sidi Mohammed Ben Abdellah-Fès, Morocco

September 2010 - July 2013

Baccalauréat, Sciences Mathématiques

Lycée, [City, Country]

June 2010

Professional Experience

Postdoctoral Researcher

Université du Luxembourg, Luxembourg

July 2022 - Present

- Conducted advanced research in Natural Language Processing and Generative AI targeted towards educational applications.
- Collaborated with international teams to develop innovative AI solutions.

Doctoral Researcher

Ibn Tofail University, Morocco

December 2016 - November 2021

- Focused on innovative AI research and dissertation on Generative AI technologies.
- Collaborated effectively with Aix-Marseille University, France on joint research projects.

Mathematics Teacher for High School Students

MINISTERE DE L'EDUCATION NATIONALE, Morocco

September 2017 - June 2021

- Employed advanced pedagogical techniques to enhance student understanding of complex mathematical concepts.

Visiting Researcher

Aix-Marseille University, France

June 2018 - August 2018

- Worked on cutting-edge Transformer-based Models and Pre-trained Language Models such as BERT and GPT-2.

Network Engineer Intern

Huawei, Rabat-Salé-Kénitra, Morocco

June 2017 - August 2017

- Led a project on designing and implementing a GSM-R Radio Network along the national railway network.

Skills

- **Proficient in programming languages including Python**
- **Experienced in Generative AI and machine learning technologies**
- **Strong analytical and problem-solving skills**
- **Excellent communication skills in English and French**
- **Proven ability to work collaboratively on multi-disciplinary teams**

Languages

- **English:** Fluent
- **French:** Fluent
- **Arabic:** Native

This resume vividly articulates Salima's education, experience, and skills aligned with the requirements for a Generative AI Engineer position, emphasizing her proficiency and suitability for the role.
